

Overview

Honda Inverter Generator. This is the ideal generator to take camping. It is just half size of other in its category and a third lighter. It's so quiet, you'll probably need to wake up to check it is running. Even more impressive is it's fuel efficiency, it can run for up to 8.7 hours on only two litres of petrol, that translates into a 20-40% fuel saving. And if you need more power, you can link two Honda inverter generators in parallel operations with a simple connection cable.

-Portability: Incorporates the unique Honda-developed high-speed pole alternator. Half the size of other generators in similar class and up to one third lighter.

-Superior "Eco-Throttle": The load-dependant "Eco-Throttle" automatically maintains engine speed and power output at most efficient level allowing for lower fuel consumption plus convenience of longer continuous operation.

-Highest quality electricity plus parallel operation: Two generators can be linked in parallel operation for double output. This is the first in its output class to incorporate a micro-controlled sine-wave inverter. Low distortion power output will run the most sensitive equipment. The parallel operations connection cable is optional for the EU10I, EU20I and EU30I.

-Two-tiered noise dampening: Cube-shaped soundproofing box and outer noise-dampening wall optimize normally opposed functions of engine cooling and noise reduction.

Specifications

DATA:

AC Frequency (Hz) 50

Ac output voltage (V) 220

Rated AC output (kVA) 1.6

Max AC output (kVA) 2

DC Output 12V-8A

Max power output (kW) 2.55 (3.47PS) 5 000rpm

Continuous operating hours (hrs) Approx. 10*-4 (* = with Eco Throttle)

Operating noise level @ 7m (dB(A)) 54*-59

ENGINE:

Model GX100

Type Forced air-cooled, 4 stroke, OHV, single cylinder

Displacement (cc) 98

Ignition system Fully Transistorized

Starting system Recoil

Fuel tank capacity (litres) 4.1

DIMENSIONS:

Dimensions (L x W x H) (mm) 510 x 290 x 380

Dry weight (kg) 21

FEATURES:

Eco throttle Yes

Oil Alert Yes

Fuel gauge No

Large capacity fuel tank Yes

Large capacity air cleaner Yes

Large capacity muffler Yes

Large capacity fuel cleaner No

Accessory AC plug Yes

Automatic voltage regulator No

Voltmeter No

AC circuit breaker Yes

DC circuit breaker Yes

Parallel operation connection ports Yes

Parallel operation connection cable Optional

4-wheel Dolly kit N/A

Electric starter No

Battery tray kit No
